

Xanview: Get more from your CCTV

Security of an NVR, Power/Analytics of a VMS, Simplicity of a Cloud Camera

Xanview is the CCTV of the future:

- **Instant information** about your business, home, etc.
- **User friendly website** (yourname.xanview.com).
Windows, Mac, iPhone, iPad, Android, etc.
- **Powerful features, yet simple** to use.
- **Large businesses, small offices, homes.** One login for all locations.
- Quality, high definition recording
- **Set up in minutes.** No messy software downloads!
- Professional grade security features.
- Silent & compact. Hides or sits on your desk!

& much more!

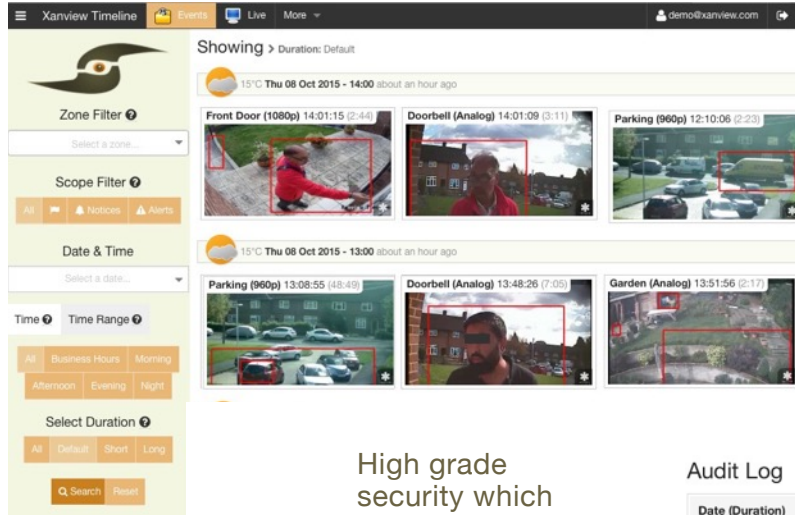

Distributed by your authorised Xanview installer.
Please contact him/her for details & pricing.

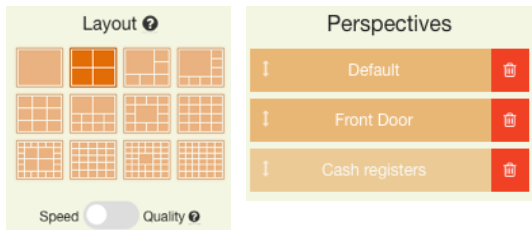

A few of Xanview's many features:

Smart filters find specific events in seconds. No rewinding for hours, unlike with other systems.

Intelligent technology shows you what you need to look at. Helps you stay aware & saves time. Click on video to play, or just scroll through still shots.

Live view: custom screen layouts, speed vs. quality control & much more!

High grade security which includes audit log alerts, & control of each user's access right.

Audit Log

Date (Duration)	User	Platform/Browser (Lang)	Country/City	IP/ISP
